DETAILED ACTION

Election/Restriction

- 1. 1.Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, 6-20, and 26-29, drawn to a method for issuing a card for a funded account of a claimant, classified in class 705, subclass 41.
 - II. Claims 21-25 drawn to a system for adjudicating an insurance claim, classified in class 705, subclass 4.
 - III. Claims 30-32, drawn to a method for extending a line of credit associated with the value of an insurance clam, classified in class 705, subclass 38.
- 2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility as a method of funds transfer using a card with an electronic memory; and invention II has separate utility such as a system for processing an insurance claim. Invention III has separate utility such as a method of credit processing. See MPEP § 806.05(d).

DŽ.

- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
